	<a href="#">28734</a>		4-May-20	CO	Gardner, Kennedy	4-May-20	<div></div>	-	-	N	Renergy Emerald Digester	-	-	Morrow	Email received by Jessie in PIC From: <div></div> <div></div> Sent: Saturday, May 2, 2020 3:38 PM To: Langdon, Jessica Subject: Renergy Hi Jessica, No need to reply...just for your records as the EPA has done nothing but fail us. See below please...from Facebook <div></div> Like everyone else I was looking forward to spending much needed time working outdoors after our rainy week. I have a splitting headache, my sinuses are burning, you name it thanks to the ungodly stench coming from Renergy. The wrap around porch that I had always wanted is useless thanks to the self centered greedy acts of the Ringlers and Oberfields. The beauty of the surrounding trees is overshadowed by the never ending reminder of the hell hole you operate. Cari Oberfield...you portray us a rebel flag waving low lifes who have threatened you on your FB page . I'd like to know who's threatened who? Your green company pollutes our air and surrounding land but we're the threat??? You also like to throw around the disgruntled ex employee crap...get over it AND YOURSELF. Just because I worked for Ringler when they were hog farmers-AND left on my own accord does not mean that I want to smell your chemical and pathogen laden or nor do you have the right to foist it on me or my neighbors. Why don't you share this on your page??? Sent from my iPhone
